

Tell us why you're interested to intern for Avalanche Studios NY:

I'm interested in Avalanche Studios NY because Avalanche Studio is a lead AAA Game Company that provides an opportunity for the current First Year MFA to get a chance into AAA Game industry. That'll be a great experience for students (like me) who are pursuing MFA in Game Design.

I'm a game artist and programmer for Unity3D games (PC and Mobile) and currently studying major of game design at NYU Game Center. I really love AAA games and always hope one day that I can make friend with who are working at AAA game industry. And expect to see how a high-level game is creating and developing. Because of talent people in Avalanche Studios. Because of famous games (Mad Max, Just Cause, The Hunter) is developed by Avalanche Studios. Avalanche Studios is the right place that I expect to be an intern in.

I apply for Art Intern position at Avalanche Studios NY and look forward to having an interview with you.

All the Best,
Gordon
