

Dear hiring manager,

I would like to be considered for the Graphic Designer role at Ring Santa Monica team. With my strong technical skills in Photoshop, Illustrator, Flash Animation and 3D Modeling combined with my education and experience in game design, I am convinced that I would be a valuable asset to the team.

I am impressed by Ring's leadership and accomplishment in Security industry. My vivid imagination and proven ability to design graphics and visual materials through my artistic vision is a perfect match for Ring's amazing culture and requirements. Additionally my cross-cultural exposure and fluency in English and Chinese taught me how to establish lasting professional relationships. I embrace change, seek out opportunities to learn, and focus on success.

I bring with me my passion for graphic design, 3D modeling and multimedia design, and my experience in Unity development at NYU Game Center. With a Multimedia undergraduate degree, a Master of Fine Art in Game Design and work experiences as Flash Designer at Ogilvy & Mather, I developed strong insight of artistic vision, solid skills in advertising, Photoshop, Flash Animation, 3D modeling and programming, as well as problem-solving and team-work abilities. As a game artist at NYU, I have deep understanding of 3D modeling pipeline, Unity game development and performance optimization. During my MFA program, I developed 3 solo games and 2 games in team projects, fully responsible for 3D modeling, game visual design, programming and promotion graphic design. I have also been working as teaching assistant that assisted NYU professors in classes and mentored 28 NYU students on Photoshop, Unity and 3D Modeling.

I am a quick learner and I work hard to get the job done while building strong relationships with all team members. The Graphic Designer role is a perfect opportunity that would give me a chance to learn and grow with Ring, a company that I'm passionate about. I would love to further discuss how I could contribute my skills and experiences to Santa Monica team at Ring. Thank you for your consideration and I look forward to speaking with you soon.

Sincerely,

Gordon Lee (Cunbo Li)
